

IOSH MANAGING SAFELY COURSE

No more 'death by PowerPoint'. We know that getting people fully involved, having fun, and learning by doing, is the way to achieve health and safety training success. We want to get delegates really thinking about what they are learning and having confidence and enthusiasm to put it into practice when they're back at work.

Managing Safely is highly interactive, keeping delegates fully involved at every stage of the course.

The new course is very practical, offering step-by-step guides to carry out the key health and safety activities managers are responsible for, and giving checklists and other materials for them to try out on the course and use when they get back to work

Duration

Four Days

Target

Managing safely is for managers and supervisors in any sector and any organisation. It is designed to get managers up to speed on the practical applications they need to take to handle health and safety in teams.

Assessment

End of course written assessment
Work based project
(completed within 2 weeks)

Outline programme

The qualification covers the following topics:

- **Introducing managing safely**
- **Assessing risks**
- **Controlling risks**
- **Understanding your responsibilities**
- **Identifying hazards**
- **Investigating accidents and incidents**
- **Measuring performance**
- **Protecting the environment**

All successful delegates will receive an IOSH accredited certificate
